Overview

Avery Krushall is an Attorney at Reddy & Neumann P.C. Avery earned his J.D. from the Thurgood Marshall School of Law in 2018 and spent time working as a criminal prosecutor before entering the practice of immigration law, a field that he is both passionate about and intrigued by. He believes that while the immigration process is one that is complicated and lengthy, it is his and every other immigration attorney's duty to help simplify the process and guide their clients through. Avery strives to provide his clients with impeccable service, professionalism, and an open line of dialogue for any questions that they may have on their journey to achieving their goals. Just as his favorite quotation states, Avery believes that a journey, like immigration, which may seem like a thousand miles long, begins with only a single step.
